1 **Examiner Interview**

2 A telephone interview was conducted on February 14, 2007 between
3 Examiner Marisol Figueroa and Emmanuel Rivera. After the interview, amended
4 claims were provided to address 112 rejections, and 102/103 rejections. A follow
5 up conversation between Examiner Figueroa and Emmanuel Rivera on February
6 20, 2007 discussed that the claims as amended in the response overcome the
7 rejections. In particular, the cited references do not teach the following
8 “instructions stored in a memory executable on the processor to store location
9 communication networks available to a user and determine from the digital signal
10 information available wireless and wired communication networks to the user,
11 wherein the communication networks are associated with other communication
12 devices”.

1 CONCLUSION

2 All pending claims 18-24 and 26 are in condition for allowance. Applicant
3 respectfully requests reconsideration and prompt issuance of the subject
4 application. If any issues remain that prevent issuance of this application, the
5 Examiner is urged to contact the undersigned attorney before issuing a subsequent
6 Action.
